PROFESSIONAL SUMMARY

Product-minded Front-End Developer with a strong foundation in the ReactJS/Next.js and TypeScript ecosystems. Beyond writing functional code, I focus on building Scalable Architectures, maintaining clean separation of concerns between logic and UI, and optimizing User Experience (UX) through advanced asynchronous programming techniques. Strengths: High adaptability to new frontend technologies (Zalo Mini App, Next.js), strong logical thinking (Angular/RxJS), and professional teamwork skills following Agile workflows.

EDUCATION

University of Economics - Technology for Industries (UNETI) | Hanoi

9-2021 - 8-2025

Bachelor of Information Technology

Graduation Classification: Good

WORK EXPERIENCE

Eztek Digital Solutions Co., Ltd

02/2025 - 1/2026

Front-end Developer

Participated in developing and maintaining software products on Web platforms and the Zalo Super App ecosystem.

Key Responsibilities:

- **Web App Development (ReactJS/Next.js):**
 - Translated Figma designs into pixel-perfect, responsive UI components.
 - Collaborated closely with Backend Developers using Swagger and Postman for stable API integration.
 - Optimized performance and refactored legacy modules to TypeScript, significantly minimizing runtime errors.
- **Zalo Mini App Development (ZMP SDK):**
 - Built E-commerce applications within the Zalo ecosystem using React, ZaUI, and Tailwind CSS.
 - Integrated advanced Zalo APIs: User Authentication (Login), Phone Number API, and Location services.
 - Optimized bundle sizes to achieve fast startup times on mobile environments.
- **Admin System Maintenance (Angular):**
 - Maintained and developed new features for an internal admin portal using Angular and RxJS.
 - Implemented Role-Based Access Control (RBAC) mechanisms for internal users.
- **Workflow & Collaboration:**
 - Managed source code via Git, strictly adhering to Feature Branch workflows.
 - Conducted cross-functional Code Reviews (Pull Requests) before merging to ensure code quality.

SKILLS

Core Stack: ReactJS (v18), Next.js (App Router/SSR), TypeScript

Other Frameworks: Zalo Mini App (ZMP SDK), Angular (Admin Portal).

State & Data: TanStack Query (React Query), Redux Toolkit, Context API, RxJS.

API & Integration: RESTful API, Fetch/Axios, Swagger, Postman

UI/UX Ecosystem: Material UI (MUI), Tailwind CSS, SCSS, Responsive Design, Ant Design, ZaUI, Framer Motion (Animation)
